

**Safety Data Sheet
Grout Admix**

Note: This Safety Data Sheet has been prepared to provide information on the typical application strength Material which is used in the treatment of goods and surfaces. The hydrolyzed material in the dilute solution then covalently or ionically bonds with the target surface and covalently bonds with itself to form a durable copolymer. Any CAS Numbers shown below are for the "as supplied" form of the antimicrobial. No CAS Numbers have been assigned for the intermediate hydrolyzed form or the resulting copolymer, neither of which are articles of commerce.
