TILE DOCTOR®
Grout Mix

DESCRIPTION

The TILE DOCTOR ® Grout Mix provides one easy step to super charge your cement grout. Seal, protect and strengthen grout by replacing water with Grout Mix. No need to seal after curing, Grout Mix gives you the same stain resistance as most grout sealers – get it all done the first time. This low VOC formula contains the Tile Doctor Shield® Antimicrobial Technology that protects the Grout Admin from Mold, Mildew, Algae and Odor Causing Bacteria.

USES

Mix with Sanded Portland Cement Grout in place of water per grout manufacturer's use directions; for indoor and outdoor applications.

APPLICATION

Read entire label before using. Supercharge your sanded grout by using The Tile Doctor's Grout Mix to seal and protect in one easy step. Grout Admix VOC-compliant formula replaces water in your mixture.
Sanded Portland cement Grout:
Use 70 ounces of TILE DOCTOR Grout Mix to 25 pounds of grout. Each grout manufacturer will have different required liquid requirements to achieve a workable grout. If adding TILE DOCTOR Grout Mix to less than 25 pounds of sanded grout, start by adding approximately 2.8 ounces per pound of grout.

If additional liquid is required, use only cool, clean, potable water. These are general guidelines and can vary slightly depending upon grout manufacturer, temperature and other job-site factors.

Important: Excessive Enhanced Grout Mix-to-powder ratio may cause negative results. When using multiple bags, mix each using the same ratios. When desired consistency is achieved, allow mixture to sit for 10 minutes. Do not add more liquid. Again, mix thoroughly. Use grout manufacturer's instructions in the application process. Do not allow traffic on grouted surface for at least 24 hours.

Do not allow submersion in water, cleaning or freezing temperatures for at least 10 days or grout manufacturer's directions, whichever is longer. After it cures, there is no need to seal grout.

MAINTENANCE

Routine maintenance and cleaning of the grout is required. Clean up spills as they occur. See www.TileDoctor.com for recommended routine cleaning and stain removal products.

STORAGE

Store between 32° F and 100° F, out of direct sunlight. Avoid freezing.

LIMITATIONS

Use only with Sanded Portland cement Grouts. Allow tile applications to cure at least 24 hours or follow grout manufacturer's recommendations before applying grout. If tile and stone are to be sealed, do so, and allow curing before applying grout. Do not use Enhanced Grout Mix with rapid setting grouts or grouts already claiming stain resistance, or with liquid, epoxy, urethane or any ready-to-use grout. Do not mix TILE DOCTOR Grout Mix with Any other additives. Follow grout manufacturer's recommendations for suitability of installation surfaces or test a small area for suitability.

CAUTION: Wear goggles when in use. Do not get in eyes and avoid skin contact or ingestion. Eye contact: flush with water for 15 minutes. Get medical attention if any irritation persists. In case of spill, collect with absorbent material and neutralize with an anionic detergent prior to disposal.

WARRANTY

Limited lifetime warranty. Satisfaction guaranteed. If not completely satisfied with this product's performance, when used as directed, contact The Tile Doctor in writing within 15 days of discovery of the defect for exclusive remedy of either refund of the TILE DOCTOR Grout Mix purchase price or replacement of product upon return of unused portion with proof of purchase. The Tile Doctor will not pay for more than the replacement cost of the TILE DOCTOR Grout Mix product and is not responsible for failure resulting from normal wear and tear, structural failure or misuse of the treated grout based upon standard manufacturer's recommendations. Determining suitability of product for any intended purpose shall be solely the responsibility of the user.

THERE ARE NO WARRANTIES EXPRESSED OR IMPLIED, INCLUDING THOSE OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE, WHICH EXTEND BEYOND THE DESCRIPTION ON THIS LABEL. THE TILE DOCTOR IS NOT RESPONSIBLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGESHOWEVER OCCASIONED.

KEEP OUT OF REACH OF CHILDREN AND PETS

QUESTIONS

For technical assistance or more information, please call 877-290-9015 Monday through Friday 8:00 a.m. to 5:30 p.m. Eastern Time. For chemical emergency, ONLY (spill, leak, fire, exposure or accident), call CHEMTREC at 800-424-9300.

COVERAGE: Will result in coverage ranges expected from grout manufacturer's normal use directions.
